#### Qualifications

- Bachelor of Science (BSc), Biology/Chemistry, magna cum laude, SUNY Albany, 1980, USA
- Doctor of Chiropractic (DC), magna cum laude, valedictorian, WSCC, 1988, OR. USA
- Masters in Advanced Practice Pediatric Musculoskeletal Health (MSc), AECC/ BU, 2008 England

#### Awards

- Chiropractor of the Year 2015: Awarded for efforts to increase knowledge of musculoskeletal problems in infants and children through her work in implementing guidelines and education in the treatment of children.

#### Integration with wider health care/expert panels

- First non-pediatrician to be invited to participate in the Swedish Health Technology assessment (HTA) team to evaluate the evidence for chiropractic treatment of infant colic and potential adverse effects 2016.
- Invited participant in Delphi panel, international process of developing guidelines for the chiropractic treatment of the pediatric patient, successfully completed in 2009 and 2016.
  - Hawk C. 2009. Expert panel member for: Best practices recommendations for chiropractic care for infants, children, and adolescents: results of a consensus process. J Manipulative Physiol Ther;32(8):639-47.
  - Hawk C, Schneider MJ, Vallone S, Hewitt EG. Best Practices for Chiropractic Care of Children: A Consensus Update. J Manipulative Physiol Ther. 2016 Mar-Apr;39(3):158-68. doi: 10.1016/j.jmpt.2016.02.015. Epub 2016 Mar 31. PMID: 27040034.
- Project leader with international pediatric experts producing for the profession basic pediatric exam forms for the infant, child and adolescent with the goal of raising competence among practitioners 2018-2023
- Invited expert to participate in the Focus Group following the e-Delphi regarding a standardized definition and severity classification for adverse events following spinal and peripheral joint manipulation and mobilization
  - Funabashi M, Pohlman KA, Gorrell LM, Salsbury SA, et al. 2021. Expert panel member for: Expert consensus on a standardised definition and severity classification for adverse events associated with spinal and peripheral joint manipulation and mobilisation: protocol for an international e-Delphi study. BMJ Open;11(11).
- 

#### Service to the Profession

- Practitioner in private family practice since 1990
- Editor for review board for the journals: JMPT, JCCP and publisher Livingstone/Churchill
- Invited speaker to many associations and colleges 2006- 2022
- Guest lecturer for the Masters in Chiropractic Pediatrics through Bournemouth University
- Faculty Royal College of Chiropractic (FRCC, England)
- Faculty and chairperson of special interest group within pediatrics for European Academy of Chiropractic (EAC, ECU)
- Developed the pediatric education program for Licensed Swedish Chiropractors National Organization (LKR) and the European Academy of Chiropractic (EAC) 2014-2016
- Educator for an advanced postgraduate pediatric education for the American Chiropractic Association (ACA)
- Lead Educator developing a comprehensive pediatric postgraduate program at the Northeast college of Health Sciences

#### Consultant to Industry

- Consultant to IKEA regarding safe mattress design for infants 2006
- Consultant with the World Health Organization recommending non-pharmacological alternatives for infants and children

Research articles published: 14 papers accepted for proceedings and publication within pediatric musculoskeletal health and pregnancy

#### Proposals:

- Proposed to the Swedish national organization to implement guidelines for a minimum education for the treatment of the infant patient which have since been formulated.
- Proposal of guidelines to the ECU for discussion in 2016.

#### Public Health

- Prenatal classes for pregnant families focusing on posture, appropriate exercises, intervention for dystocia and strategies to succeed in breastfeeding
- Education in the children's health center to increase understanding of the biomechanical problems associated with suboptimal breastfeeding
- Education to parents for supine sleep for infants secondary to Public Health Initiative: Back-to-sleep and education to clinicians on how to treat infants so that they can comfortably sleep supine.
- Education to parents to improve gross motor skills in toddlers and preschoolers in an effort to reduce risks for obesity.
- Improving education to recognize Borrelia masquerading as a musculoskeletal issue
